

Patient Account #

Dear Patient,

You are scheduled for a complete physical also known as a “well-person visit” today. This visit is designed to discuss ways to keep you healthy and to screen for common medical problems and conditions.

If you have other problems or concerns you would like to discuss with your physician and they require evaluation and management, there will be an additional office visit charge. Evaluation and management of medical problems must be billed to your insurance separately as a “sick or diagnostic visit” and is not included in the “well person” visit.

A sick or diagnostic visit may be subject to your co-pay and/or deductible or may not be covered by your insurance if those medical problems are addressed on the same day as your well person visit. If your insurance does not cover the sick visit, then you will be responsible for paying for that visit.

If you have any new or existing health concerns you wish to discuss, please let your doctor know so that the two of you can decide what is most important to address during your visit today.
